

Individuals vs Groups Activity

Divide the group into one large team and one team of two.

Give them both a copy of the following tasks to complete.

Make a note of when each team finishes each task.

Debrief on group development, group activities, individual tasks, accuracy tasks and productivity between the two groups.

Task 1)

Find the total of the following list of numbers:

Task 3)

Take the total from Task 1 and divide by 100 then minus 3

Task 4)

Take the number you calculated from Task 3 and collect this many sheets of paper from the facilitator.

Task 5)

Ask your facilitator where you can find an egg and draw a person on it.

If you break the egg you lose (and you have to clean up the mess!)

Task 6)

Build a bridge using only the sheets of paper collected in Task 4.

The bridge has to support the egg over a gap between two tables.

The gap must be exactly 39 cm.

If you break the egg you lose (and you have to clean up the mess!)
