

## **Timed Rescue Mission**

Each group member has the same group scenario but also has their own personal goal.

Print out the map and cut out the cards that show the details of the survivors. Give each group member their own Mission statement.

---

## **Timed Rescue Mission**

It is December and there has been a ferry boat accident near Stockholm in Sweden. The boat is sinking and you are part of the rescue team.

You have one helicopter and a some ambulances on the shore. The helicopter can carry only one person at a time from the water to the shore.

There are ten people either in the water or on the sinking ship. Your group has details of each person and a map of where they are.

Your job as a team is to make a plan so that you can rescue the people using the helicopter.

Your personal goal is to rescue as many people as possible.

---
